Core Capabilities

Brand Knowledge & AI Q&A

Deliver accurate, consistent answers grounded in brand, product, and service knowledge.

Customer Memory & Long-Term AI Memory

Remember preferences, conversations, and customer journeys for personalized engagement.

Brand Persona & Custom Voice

Define personality, tone, multilingual voices, and voice cloning.

Multimodal Behavior Orchestration

Coordinate voice, displays, expressions, lighting, audio, and motion for natural interactions.

Customer Engagement & Marketing

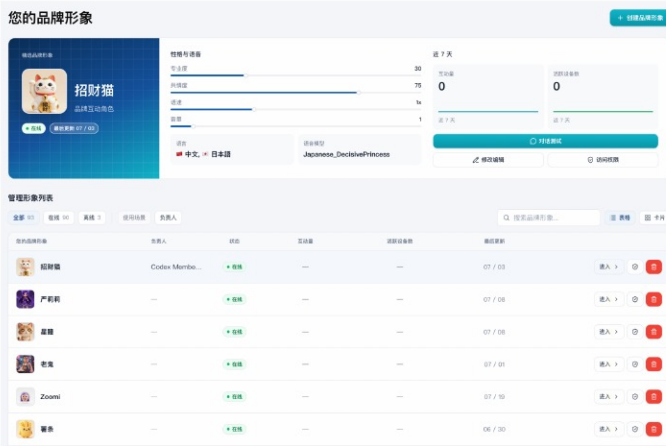

Promote products, benefits, and campaigns to drive cross-selling and re-engagement.

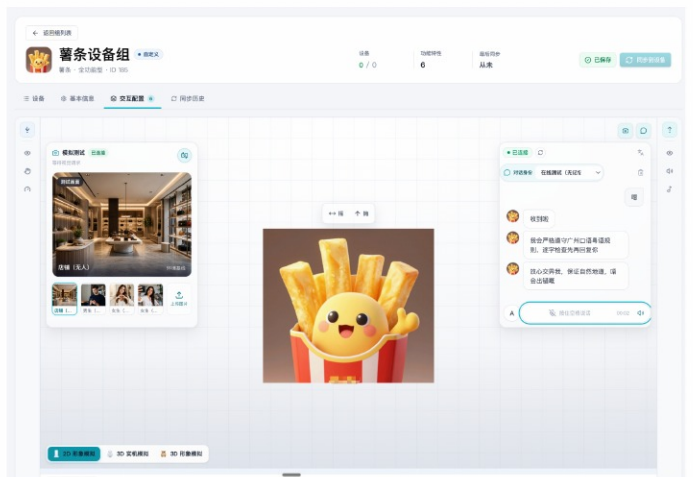

Cloud Device & Content Management

Centrally manage AI personas, knowledge, devices, content, and interaction data.

Brand Identity & Knowledge Management

Behavior & Device Simulation

System & Platform Capabilities

AI, Knowledge & Memory

AquaMind Core unifies brand knowledge, AI personas, and services with multilingual support, voice cloning, customer memory, and long-term AI memory.

Hardware, Connectivity & Ecosystem

Orchestrate displays, expressions, lighting, audio, and motion with 4G, Wi-Fi, Bluetooth, NFC, OTA, ESP32, Linux/RK3588, and enterprise integrations.

Book a Demo

Empower your robot to understand your brand, serve customers, and drive conversion.
